Welcome...

Welcome to Horsham Golf one of the South East's premier golf shops and club fitting specialists. Our golf shop and coaching team have a wealth of experience in club fitting to find the right clubs for your game.

Our club fitting facilities include a fully covered practice range, with specific wide fitting bays, along with the TrackMan Launch Monitor and Analysis Software. This along with the newest ranges of golf club equipment from the biggest manufacturers enables us to find the right clubs for you and with our 'Price Match Guarantee' you know you'll be getting the best price too.

TrackMan...

TrackMan Launch Monitor has enjoyed the status of being THE training tool amongst the leaders of the game, from tour players to golf coaches to every major golf manufacturer in the industry.

TrackMan works by microwaves reflecting from a moving golf club and golf ball. The change in frequency of these waves is what makes it possible for us to track what happens at the very moment of impact between club and ball.

We use the TrackMan App, integrated with our club fitting iPad, to give instant feedback on swing mechanics and data numbers. This means that we can show you your shot's 3D trajectory together with 26 impact and ball flight parameters in real time.

Club Fitting Sessions...

Club fitting sessions can be booked 7 days a week and are subject to staff availability. To book a session please use any of the contact details on the front of this information or visit the shop and speak with any of our golf staff.

... **£25** ...

per hour session

With any club fitting session, receive your fee back on any purchase made of £99 or more.

Custom Fit Partners...

The Callaway logo in a black script font with a large black chevron symbol below it, set against a white background with a reflection below.
